CAMA Program Subtype Change

Beginning with benefits issued November 1, 2002, only two CAMA Program subtypes will be valid on the Medical Reference (MERE) screen.

- GJ will be used by DPA for all CAMA subtypes
- GP will be used by DMA for Primary Care Lock-in clients

Systems Operations ran a conversion job the night of October 26, 2002 to make necessary changes. The November CAMA coupons that were issued by the "Regular" run on the night of October 23<sup>rd</sup> will not show the new GJ subtype. Providers are being notified that the old subtypes have been printed on many of the coupons for November and recipients are eligible for all CAMA services. This should not affect MMIS claims processing.
